**Greeting**

*"Make everything as simple as possible, but not simpler."--Albert Einstein*

Greetings Once and Future Friend!

Once you make your own Paradise, your life will be wonderful almost every day. Astrocartography and other exciting astrology tools now allow you to make your own Paradise.

With this book you can discover exactly when is the ideal time for you to enjoy the best life has to offer—love, wealth, health, family and friends.

Selecting the best time to start or do something important, to insure your success, is called horary astrology. It is as complex and precise an art as all other branches of astrology.

For 30+ years, I have perfected my understanding of horary astrology in my professional client practice. This book offers you the results of my successful insights into the art of selecting perfect beginnings.

It gives you, in a simple useful way, the clock to time your days in Paradise. Every moment is an opportunity for something. Discover what and you will realize it is never too late for happiness and prosperity.

Bon chance!  
Stephen

## Selecting Paradise StarWise Ratings of Your Planets in Signs

### Introduction

*"Maybe this world is another planet's Hell or Heaven."-Aldous Huxley*

#### Free Charts and More on Website

I set up my website to support this book and your efforts to make your Paradise. You can obtain free natal and relocated charts, astrocartography maps, various forecasts, interpretations, and more at: [Free Charts/Maps/Forecasts](#)

#### Paradise Timer in Your Pocket

This book can help you decide when the right time is to most easily achieve your dreams of a great job, true love, fame, fun, fortune, college acceptance, retirement--you name it.

This book helps you quickly judge the positive and/or negative consequences of any moment in time—concisely and accurately. It rates the quality of each planet in each sign. Plus it explains how to also rate aspects.

#### Companion Guide

This is the companion book to *"Picturing Paradise."* In that book I rate the quality of your planets in different houses, primarily for the purpose of relocating to "paradise"--a place where your best opportunities and resources await you.

*"Picturing Paradise"* is very similar to this book since signs and houses (and planets) have much in common. Signs indicate the internal, inherent, intrinsic potential of any moment, while houses indicate the external conditions or circumstances of the place you are. This interplay reflects the familiar heredity versus environment interplay.

#### Free Introductory Book

If you want to learn more about the whole concept, techniques and benefits of astrocartography relocation, download my companion book, *"Finding Paradise."* for free at: [StarWise Books](#).

In that introductory book, I explain how you can maximize your life through a (star) wisely planned relocation. You get the benefits of my own insights, approach and experiences on astrocartography relocation. I explain how a professional astrocartographer pinpoints just where Paradise is for you.

Now, by using this book, you can also determine when you should relocate--or do anything else you desire.

#### When To Stop the Merry-Go-Round

Each and every day the planets change their pattern, moving from sign to sign. Some, like the **Moon** move very quickly, staying in one sign only for a few days, while other planets, like Pluto, stay in one sign for up to 30+ years.

Since the sign positions of the planets and their aspects play the critical role in defining each moment, the ratings in this book will help you pick the ideal time to do whatever you wish.

Obviously, you already realize that certain times offer you more opportunities and resources to achieve your goals and dreams than other times. But when?

**Selecting Paradise**  
**StarWise Ratings of Your Planets in Signs**

### **"Timing is Everything"**

Let's say, for example, that you are getting married and you want to pick the "perfect" time for the wedding. There are two valid, effective ways to do this.

The absolute best way is to get a comprehensive forecast for yourself, the same for your spouse, and also the same for your "Union" chart (also known as your composite or combined chart, which integrates both of your separate horoscopes into one chart). Then you analyze these three forecasts and select out the best day and time for your wedding. This effort does indeed take considerable time, but the results are excellent. You can buy this service from an astrologer, but it will be expensive.

The alternative way is to have a few future dates in mind, like three different Saturdays. Then you simply assess the quality of those dates and pick the best one for your wedding. To do this, first, use my website to get charts for the three dates and times you have in mind. Then use this book to score each date to find the winner. It may not be the "perfect" time, but it will definitely be the best of your choices.

### **Pair of Dice**

Sometimes, you have no real choice about when you must do something, like an obligation. In this case, this book can at least outline the challenges and opportunities to expect so you can at least prepare yourself.

### **Rating System**

In this book I grade each of the planets in each of the 12 possible sign positions

## **6 Ratings per Planet-Sign**

- 1) Overall Life**
- 2) Career and Money**
- 3) Social Life, Fun, Love and Romance**
- 4) Family Life**
- 5) Home and Local Surroundings**
- 6) Health**

I use two scales: A+ (best) to F- and also 14 (best) to 0. The planets and signs are properly color-coded to help you better identify them.

From **Sun in Aries** to Pluto in **Pisces**, you will find all 120 possible planet-sign combinations rated both ways. The effects of signs are further divided into six different areas of life, individually rated to further help you decide when to do something. These include overall, job, love, family, home, and health. These 720 grades, plus the ratings for aspects, should easily help you time your efforts.

If you know some astrology, but are not an expert, you will especially like the layout of the book. To make this book easier to read, astrology basics, like the symbols and terms, are explained on my website at: [Introduction to Astrology](#)

### **The Master's Bible**

If you want to know ALL about the planets in the various signs and/or houses, please consider my other books, available at: [StarWise Books](#).

## **Chapter 1~A Word of Caution**

*"When I use a word, it means exactly what I wish it to mean."--Caterpillar in "Alice in Wonderland"*

### **There is No Accounting for Taste**

Rating life is tricky business. The only thing more complicated is life itself. The ratings in this book are no exception. Any rating reflects personal taste and preference. What I might consider "good," someone else could honestly call "average" or "great."

To explain this in terms of this book's rating scale, my "B" rating could be someone else's "C" or "A" rating. For this reason, I deliberately stay middle-of-the-road, so the ratings are more objective and conventional.

### **Shiva's Many Arms**

There is another quite misleading complication to ratings as well. All planets and sign positions have more than just one single manifestation. For example, the **Sun** in any sign of your chart actually manifests an infinite number of effects.

Of course, these will reflect traditional solar "themes," such as your conscious ego or will (your adult mind reading this), your children, creativity, sexuality, pleasures, and, for women, the men in your life.

The problem is that these different manifestations will have different quality ratings, due to the interactions of natal, transiting and/or progressed planets.

### **No Uniformity**

Sometimes, a planet's effects are very uniform in terms of quality rating. In most cases they aren't. One effect is an "A" while another is a "C," etc.

One overall rating for these separate effects can be misleading unless you read "between the lines." The ratings in this book are an average of the various effects within each category.

Thus, a "B" rating for Career and Money, is an average of all your work and financial circumstances. It does not mean every moment and part of your career and money will be a "B."

Fortunately, in most cases, these variations are minor. To best understand the new opportunities and resources you will enjoy in a specific location, read the full descriptions in the unabridged edition of this book.

### **Number vs. Letter Grades**

If you prefer a numerical score instead of a letter grade, I have included this arbitrary scale: 14 = best, 7 = average, 0 = worst.

Numbers allow you to add up your 60 scores (10 planet-sign combinations x 6 areas) into one Grand Total. Then you can easily compare the Grand Totals for different potential locations to see which is best.

## **Chapter2~Quick Guide to Your Goals**

*"Whether you think that you can, or that you can't, you are usually right."-Henry Ford*

### **The Real Secret of Many A Success-- Timing**

You already know that certain specific times offer you more opportunities and resources to achieve your personal goals than other times do. Common sense says, for example, that it is easier to get together with friends on weekends when they aren't working.

You may, in fact, know someone who perhaps decided to start their own business, because they felt it was "the right time" and lucked out with success.

There are millions of such success stories. As a professional astrologer, I realize that this good fortune occurs because the person picked the perfect time, based on their own instincts, luck and experience.

### **Make Your Own Luck**

Fortunately, by using this book, you don't need to rely on blind luck, instinct or fate to know when to act to insure maximum success. Here is how you can "pick your shots" to enjoy great success.

Use the tables below, "**Your Goals**," to look up what planets to have in which sign based on the specific goal you wish to achieve. Say, you want a great new job as a manager (i.e., in administration), then apply for jobs whenever these transiting planets, **Sun**, **Jupiter** and/or **Mars**, are in these signs: **Capricorn**, **Aries**, **Sagittarius**, or **Libra** (not **Mars**).

These are listed in order of their power to help you. Thus, you benefit the most when transiting **Sun** is in **Capricorn** and the least when transiting **Mars** is in **Sagittarius** (not **Libra** = poor for **Mars**).

Once you have one or more possible times selected, you can then refine your results further by scoring the planetary aspects. The more planets you have in great signs, with great aspects, the better your success.

### **3-D Analysis for Maximum Accuracy**

You should always consider factual reality, not illusion or half the picture. It is best to evaluate your astrology charts, forecasts, etc. from a real-life point of view, in 3-D, not squashed into some misleading shape. If you analyze all astrology elements from two points of view, you have a much better understanding of reality. I explain the techniques to do this in my book, "[Your Right Horoscope](#)."

### **Plan for Success**

Once you have one or more possible times selected, you can then refine your results further by scoring the planetary aspects. Evaluating the aspects is usually the tricky part.

The more planets you have in great signs, with great aspects, the more success you will enjoy.

## Do's

Like most people, you probably want to attain certain specific goals, such as get a better job, fall in love, retire, improve your health, attend college, or settle down and start a family.

The question to ask is, "when can I achieve these goals faster, better and easier?" The table below, "Your Goal for Relocating," can help you answer that question.

The more beneficial planets you can move into helpful signs, the more you will reach your goal and be happy you did. Your best time to start/do anything will reposition as many planets as possible into beneficial signs. The planets and signs are prioritized with the most helpful first, least helpful last.

The aspects of the planets involved also determine the extent to which you achieve your goals. Other key factors to help pinpoint the best time to achieve your goals are:

- the relationship between the planets and their rulers
- the relationship between the signs and their rulers.

I examine these issues in more detail in my other books.

## Don't's

The table below, "Your Goal for Relocating," shows only things you should "DO" to increase your positive factors.

However, there are just as many negative things to avoid which can spoil your success. Usually, it is best to carefully minimize the number of "flies in the ointment."

For example, if you want to earn the most money possible, one of the most valuable positive actions you can "DO" is to time your efforts so that the **Sun** is in **Taurus**. That will actively contribute to you achieving your financial goal.

Yet, if that is impossible, then at least "DON'T" have the **Sun** in the square and opposite signs, **Leo**, **Scorpio** or **Aquarius**, since these signs manifest in ways that often work against the goal of earning a lot of money.

Likewise, **Uranus** and **Saturn** are "opposite energy" planets to the **Sun**. Therefore, "DON'T" have them in **Taurus**, because this will also work against your financial goal.

Converse negations ("double negatives") help you by minimizing problems, but their passive benefits are weaker. Converse negations require the catalyst of positive, active factors ("Do's") to have real beneficial value.

For example, to earn money, have **Uranus** and/or **Saturn** in **Leo**, **Scorpio**, or **Aquarius**. This will mildly and indirectly help you earn money, by not preventing you from earning it. These planets do not directly stimulate you to earn lots of money. Rather they help you be inventive and focused in ways that support you earning money--if other positive factors are present, such as, **Sun** in **Taurus**.
